

Agribusiness Consultant – Value Chain Emphasis

Centrec Consulting Group, LLC has been a leading provider of consulting services to agribusiness since 1982. We are seeking an analytical and energetic individual to join our professional consulting team in Savoy, Illinois.

Qualified candidates will have at least a master's degree in agricultural economics, finance, economics, or business administration with relevant work experience; or a bachelor's degree and 5+ years of relevant work experience in agribusiness, academia, or consulting. This position is for individuals who are capable of independent work while also possessing strong team-working skills and interpersonal communication skills. Applicants must be interested in both continually learning new skills and sharpening existing skills.

Responsibilities with this position include helping agriculturally-oriented organizations achieve their objectives through:

- Strategic assessment and analysis of client issues
- Data assimilation, analysis, and results reporting
- Develop simulation models to assess alternative strategies
- Business research, analysis, and writing

Required skills include the following:

- Logic and problem solving – conduct strategic assessment of client issues, analyze issues thoroughly, and develop creative and sound solutions to business problems
- Research compilation and summation – conduct independent research in areas where the applicant may or may not have experience, outline and compile research findings into logical and concise summaries, and present findings to team members and clients
- Communication skills – write and communicate clearly, thoroughly, and concisely in both narrative and presentation styles
- Statistical and economic analysis – understand and interpret statistical and economic concepts and analyze economic issues
- Fluency in Microsoft Office programs – effectively use Excel, Word, PowerPoint, (and in some cases Access), analyze information, present results, organize data, etc.
- Background/experience in Excel modeling – understand and develop tools created in Excel for assisting clients and for modeling business processes

This is a salaried position plus profit-sharing bonus and benefits with exceptional growth potential commensurate with performance. Relocation to Champaign-Urbana-Savoy area required and travel is required.

See our web site (www.centrec.com) for information about our company, client base and practice areas. Interested applicants are invited to submit a resume including references to careers@centrec.com.
